Subject index: An alphabetical list of subjects derived from *Library of Congress Subject Headings*.

Cumulative indexes are published semiannually, annually, and quinquennially.

Abbreviations

The abbreviations used in the bibliographic records in the catalog are those described in the *Anglo-American Cataloguing Rules*, 2nd ed., and the *GPO Classification Manual: A Practical Guide to the Superintendent of Documents Classification System*.

SOURCES OF INFORMATION ABOUT GPO SALES PUBLICATIONS

Publications Reference File—The GPO Sales Publications Reference File (PRF) is a catalog of all publications and subscription services currently for sale by the Superintendent of Documents. It is available in 48x microfiche and on machine-readable magnetic tape. The microfiche service consists of bimonthly mailings of the complete master file (approximately 175 to 225 fiche) and monthly mailings of a single fiche listing new sales publications. The magnetic tape service consists of biweekly mailings of the complete file. An annual subscription to the microfiche is \$115.00 (domestic) and \$143.75 (foreign). A subscription to the magnetic tapes is \$850.00 a year (domestic) or \$1,062.50 a year (foreign). To order either service, use the form in this catalog. Please enter the identifying letters PRF for the microfiche or GPRFT for the magnetic tapes in the ID column on the order form.

DIALOG and DIALORDER are computerized reference systems available from the DIALOG Information Service Inc. of Palo Alto, California. Information on all U.S. Government Printing Office sales items, subject bibliographies and catalogs listed on the Publications Reference File can be found through the DIALOG system. Subscribers to DIALOG can use it to determine if a publication is for sale by the Superintendent of Documents, if the item is in stock, and its stock number and current price.

An additional service, DIALORDER, is also available from DIALOG. Subscribers to DIALOG can place an order for publications with the U.S. Government Printing Office by computer at a special charge. For additional information on DIALOG/DIALORDER, please contact:

The *Out-of-Print GPO Sales Publications Reference File* provides users with access to historical records for publications which were once available through the Sales Program. Two 6-year cumulations have been produced. The first was published in 1980 and is known as the Exhausted GPO Sales Publications Reference File (EPRF). It includes 25,000 items which went out-of-print at GPO between 1972 and 1978. The second, known as the Out-of-Print PRF (OPRF), was published in 1986. It contains 35,000 titles which went out-of-print between 1979 and 1984. The EPRF and the OPRF continue to be supplemented each year. Supplements are sold annually and will cumulate until a third 6-year set is available in 1992.

Copies of publications listed on the EPRF and the OPRF may be found in regional depository library collections. Copies of certain technical publications no longer sold by the Superintendent of Documents may be available from:

National Technical Information Service
5285 Port Royal Road
Springfield, VA 22161

There are currently more than 230 *Subject Bibliographies* that list publications and subscriptions on a single subject or a specific field of interest. Each entry is listed by title and contains the GPO stock number and price. The bibliographies also provide a brief description of some of the publications and subscriptions listed, ordering information, and the date of imprint of a publication. The Superintendent of Documents has also prepared a *Subject Bibliography Index* to assist customers in selecting the subject bibliography that is most closely related to their needs. To obtain your free copy of the Subject Bibliography Index, please write to:

FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1400 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty-three of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions. They also assist the other depository libraries with the disposal of obsolete material.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. A complete listing of regional depositories follows. To obtain a complete listing of all depository libraries, write to:
